

Cell Phone Policy

The Beaumont Public Library System discourages the use of cell phones in Library buildings to create an environment conducive to reading, studying, research, and quiet collaboration. All library users are expected to respect those who desire quiet to conduct their library activities. When entering any library building, please set cell phones and other electronic devices to the vibrate/silent mode. Users engaging in disruptive cell phone conversations in the library will be asked by the library staff to move outside. Please do not speak on cell phones while receiving service at a public service desk.

Adopted 3/29/2011

Paul W. Eddy, Library Administrator
